Wlp talked with Mr. Hefner, office of Sen. Wiley, re the statements of the Sen. that American intelligence had been caught flat-footed by the Korean invasion. Mr. Hefner promised to check into the matter.

Upon instructions from the Director, Wlp met with Congs. Van Zandt Simpson, Saylor and Gavin of Pa. and Vorys of Ohio to review the intelligence situation in Korea prior to the attack. I reread extracts from reports which the Director had previously read to the House Armed Services Committee indicating our estimates of the Korean situation.
